

## Challenge: Add pairs

Pick two of the numbers above.  
Write them down and add  
them. Put the answer below.

$$\square + \square = \square$$

Now pick a different pair of numbers. Write  
them down and add them.  
How many different answers can you get?

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$
