It all adds up.

Can you put the numbers 1, 2, 3, 4 and 5 in the circles so that both lines of 3 add up to the same total?
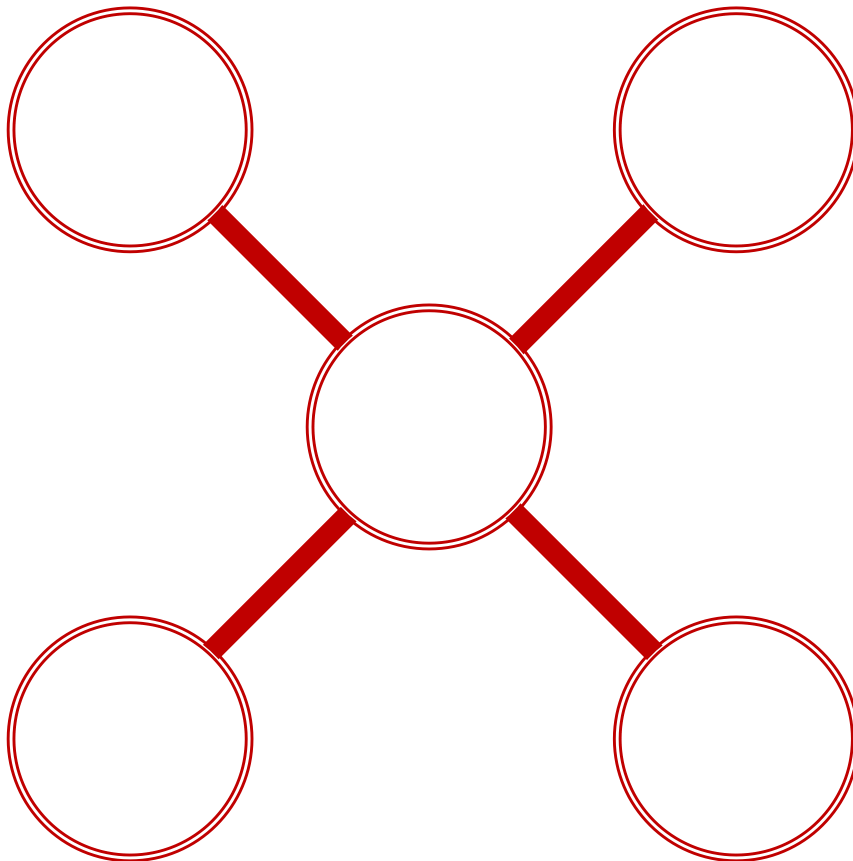

1 2 3 4 5

How many ways can you find to do it?
(It's a good idea to cut the numbers out and move them about the grid.)

One possible answer:

Put the middle number (3) in the middle and work from there.
