

Put numbers in the boxes to complete the pattern.

$$0 + 8 = 8$$

$$1 + 7 = 8$$

$$\square + 6 = 8$$

$$3 + \square = 8$$

$$\square + \square = \square$$

$$\square + \square = \square$$

Can you make a similar pattern for 5?

$$\square + \square = 5$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

Put numbers in the boxes to complete the pattern.

$$0 + 6 = 6$$

$$1 + 5 = 6$$

$$\square + 4 = 6$$

$$3 + \square = 6$$

$$\square + \square = \square$$

$$\square + \square = \square$$

Can you make a similar pattern for 7?

$$\square + \square = 7$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

Put numbers in the boxes to complete the pattern.

$$8 - 0 = 8$$

$$8 - 1 = 7$$

$$\square - 2 = 6$$

$$8 - \square = 5$$

$$\square - \square = \square$$

$$\square - \square = \square$$

Can you make a similar pattern for 5?

$$5 - \square = 5$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

Put numbers in the boxes to complete the pattern.

$$6 - 0 = 6$$

$$6 - 1 = 5$$

$$\square - 2 = 4$$

$$6 - \square = 3$$

$$\square - \square = \square$$

$$\square - \square = \square$$

Can you make a similar pattern for 9?

$$9 - \square = 9$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$
